Allied Telesis™

Release Notes for the
XS900MX Series 10 Gigabit Ethernet Switches
Installation Guides

Please read this document before installing the product. The document has the following sections:

❒ "Installation Guides"

❒ "Cable Requirements"

❒ "Contacting Allied Telesis" on page 2

Installation Guides

The information in this document applies to the following XS900MX Series Installation Guides:

❒ XS900MX Series Installation Guide for Stand-alone Switches (613-002257 rev. C)

❒ XS900MX Series Installation Guide for Virtual Chassis Stacking (613-002256 rev. C)

Cable Requirements

This following pages in the Installation Guides contain incorrect cable requirements for the twisted pair ports:

❒ Page 20 - XS900MX Series Installation Guide for Stand-alone Switches

❒ Pages 22 - XS900MX Series Installation Guide for Virtual Chassis Stacking

The updated minimum twisted pair cable requirements for 100Mbps and 1Gbps ports are given here:

❒ 100Mbps - Standard TIA/EIA 568-B-compliant Category 3 unshielded cabling.

❒ 1Gbps - Standard TIA/EIA 568-A-compliant Category 5 or TIA/EIA 568-B-compliant Enhanced Category 5 (Cat 5e) unshielded cabling

The recommended twisted pair cable for 10Gbps ports is given here:

❒ Standard TIA/EIA 568-C-compliant Category 6a unshielded cabling.

The following sentence corrects references to the appropriate type of cabling for a stack trunk of twisted pair ports, on pages 42, 126, and 127 in the XS900MX Series Installation Guide for Virtual Chassis Stacking:

❒ Allied Telesis recommends Standard TIA/EIA 568-C-compliant Category 6a unshielded cable for stack trunks of twisted pair ports.

Contacting Allied Telesis

If you need assistance with this product, you may contact Allied Telesis technical support by going to the Support & Services section of the Allied Telesis web site at **www.alliedtelesis.com/support**. You can find links for the following services on this page:
